

PeptidosNova

Product Information

| | |
|-------------------|--------------------------|
| Product: | MOTS-c |
| Appearance: | White lyophilized powder |
| Molecular Weight: | 2174.64 g/mol |
| CAS: | 1627580-64-6 |
| Formula: | C101H152N28O22S2 |

Third-Party Testing Information

| | |
|----------------------|--------------------|
| Testing Laboratory: | BioRegen Innomax |
| Client / Source: | LLC 01 Jan 2026 19 |
| Sample Received: | Jan 2026 LC-MS / |
| Analysis Date: | UHPLC-MS |
| Verification Method: | |

Analytical Results (Verbatim from Original COA)

| Measure | Result |
|---------------|----------------------------------|
| Identity Test | MOTS-c — Conforms |
| Quantity | 45.05 mg (Spec: 40 mg \pm 15%) |
| Purity | 99.68% (>99%) |

Disclaimer: This Batch Quality Summary reproduces analytical data provided by an independent third-party laboratory. PeptidosNova did not perform the analysis. Original laboratory Certificate of Analysis is retained and available upon request. Data transcribed for clarity.
